Day 1

Algorithm types
Required files and setting up
Readme text files
Maxwell's Model Window types
Important configuration settings (red/orange/black)
TX LEVEL vs LEVEL vs GROUND CLEARANCE vs ELEV
Algorithm parameters

3D mesh models
      Arjuna setup
      Loki, Samaya setup
      Building
      Manipulating the mesh
      Adding topography
      Colour cells by resistivity
      Exercises

LE models
      Grendl setup
      Beowulf / Airbeo setup
      Exercises

Plate in LE models
      Leroi setup
      Exercises

Prism in LE models
      Marco setup
      Exercises
